VOL. I.

SAILING – VESSELS
STEAM & MOTOR FISHING VESSELS
SHIPOWNERS ETC.

The Characters used for Classification are:—

100A1 } Vessels built of Iron or Steel according
90A1 } to the Rules in force since 1869.

A1 Iron or Steel vessels built for a special purpose.

* Iron vessels built with thicker plating than required for

Iron Vessels built according to Rules in force between 1864 & 1871.

A1 A1 Æ1 Wood or Composite Vessels.

The figure 1 affixed to a character signifies that the vessel is well and sufficiently equipped ; a line after the character (thus, A—) that the equipment is deficient from that required by the Rules.

The words "*with freeboard*" under the character signify that the freeboard assigned is a condition of the vessel's class.

Classification of the late Underwriters' Registry.

A1* A1* Iron or Steel Vessels built in excess of Rules of Underwriters' Registry, and of extra quality of Iron.

A1* A1* Characters of Iron, Steel, or Composite Vessels built according to the Rules of Underwriters' Registry.

Vessels classed in Red have been built under inspection of Surveyors to Underwriters' Registry.

The Classification Columns, when left blank indicate Vessels never Classed by the Society.

In Col. 8 (Sailing Vessels), Col. 7 (Steamers), three dots ... indicate that the Vessel had a Class at one time, but it has been withdrawn at Owner's request.

In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters *a*, *b*, *c*, &c., indicate the letters and equipment numbers in Tables Nos. 53 and 54 (Rules).

A black line with date under it in Classification Column (thus 3,25) indicates that vessel's character was expunged from Register Book at date specified because, from reported defects, the vessel was not entitled to retain her classification ; a red line with date (thus, 3,25) indicates withdrawal of class because of non-compliance with Society's Rules.

A date in Classification Column, without character, indicates that the Class has expired, or been withdrawn from absence of Survey, or non-payment of fees.

When a posting of loss, casualty, &c., is made against a classed vessel the character is expunged thus :— ~~100A1~~

✠ in the Classification Column signifies that the vessel was built under Special Survey.

LMC —Boilers and Machinery certified by the Engineer Surveyors to Lloyd's Register.

LMC(M) —Internal Combustion Engines certified by Surveyors to Lloyd's Register to be in good condition after modified Survey.

B&MS —Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer Surveyors to Lloyd's Register.

DBS—Donkey Boiler Surveyed and reported to be satisfactory by the Engineer Surveyors to Lloyd's Register.

✠ Special Survey of Machinery or Boilers during construction.

Lloyd'sRMC —Refrigerating Machinery Certificate denoting that the Refrigerating machinery, insulation, and spare gear are fitted in accordance with the Rules, and were found in good condition by the Surveyors to Lloyd's Register at the time mentioned.

✠Lloyd'sRMC —The ✠ signifies the Special Survey of the Refrigerating appliances during construction, by the Surveyors to Lloyd's Register.

A&CP.—Anchors and Chains Proved at a Machine recognised by Lloyd's Register.

Lloyd's A&CP—Anchors and Chains Proved at a Public Machine under the superintendence of Lloyd's Register.

SS & ss.—Special Survey. Rest.—Restored.

Cont.—Continued. HT.—Half-Time Survey.

The *date of survey* only certifies to the vessel's state of efficiency *at that time*.

LLOYD'S REGISTER OF SHIPPING

AND THE

REGISTRO ITALIANO.

NOTICE.

In pursuance of the wishes of the Italian Government, an amalgamation was effected between the two Italian Classification Institutions, previously known as the Registro Navale Italiano, with headquarters at Genoa, and the Veritas Adriatico, with headquarters at Trieste, in order to establish one Italian register of shipping, under the name of the Registro Italiano.

An Agreement, which came into operation on the 1st April, 1922, has been arrived at between the new Registro Italiano and Lloyd's Register, with the object of facilitating the classification of vessels with both Societies in the interests of shipowners, shipbuilders and underwriters.

Under the terms of this Agreement, Italian shipowners, while securing the national classification for their vessels, will, at the same time, be in a position to have Lloyd's Register class with as little inconvenience and expense as possible.

With this object, the Agreement provides that each Institution will give every facility for the assignment of its classification to vessels classed, or intended to be classed, by the other Society, provided the standard of strength and security is not inferior to that required by its own Rules, each Institution reserving to itself the right of confirming the class by means of surveys by its own Surveyors.

In order to obviate delays and inconvenience to shipowners and shipbuilders, the surveys of the two Societies will, as far as possible, be held simultaneously, and the Surveyors of both Registers are required to co-operate in entire harmony, and to hold jointly the surveys which they have to carry out.

KEY TO THE REGISTER.

1925-26.

EXPLANATIONS OF RECORDS IN THE REGISTER BOOK.

(All abbreviations employed in the Register Book are explained in the alphabetical key, see page xxxvi.)

Steamers columns, 2 & 3; Sailing Vessels, columns 3 & 4.

Decks. See illustrations of types of vessels, following page xlviii of key. Explanations of such terms as *Shade dk.*, &c., are included in the alphabetical key, see page xxxvi.

3 Dk. rule..... This notation indicates that the vessel has been built according to the Rules for three-decked vessels.

Special Surveys. Explanations of records of special periodical surveys will be found in the alphabetical key, see page xxxvi. The records only certify to the vessel's state of efficiency *at the time of survey.*

Ports of Survey. The contractions (such as Lon., Syd., &c.), used to denote the ports at which vessels have been surveyed, are explained at page xl.

Rig, &c. Explanations of contractions used to denote the rigs of vessels will be found in the alphabetical key, see page xxxvi.

† ..... This sign following the word "*salted*" indicates that the vessel's beams have not been salted.

Sailing Vessels, columns 3 & 4.

Master. The figures which follow the master's name, thus, *Smith* 97–11, indicate the dates of his appointment (1) as master in the service of the present owner of the vessel, and (2) as master of the vessel herself.

Steamers, column 4; Sailing Vessels, column 5.

Tonnage. The tonnage recorded in the Register Book in type like that shown at the side hereof, is, with a few exceptions, the official registered tonnage measured according to the law of the country to which the vessel belongs.

3101 (Gross)
2864 (Under dk.)
1994 (Net)

For some foreign vessels, the tonnage which is recorded has been measured in accordance with British rules and is accepted under British law. In such cases, the fact is indicated by the use of italic figures, thus :—

3101 (Gross)
2864 (Under dk.)
1994 (Net)

Steamers, columns 5, 6 & 7; Sailing Vessels, columns 6, 7 & 8.

Symbols of Classification of Lloyd's Register.

100A1 ..... 90A1 ..... Characters of vessels built of Iron or Steel according to the Rules of the Society since 1869. The numerals 100, 90, &c., do not signify terms of years, but are intended for the purpose of comparison only.

A1 ..... This character (without a numeral prefixed) is assigned to Iron or Steel vessels built for special purposes or trades, to the satisfaction of the Committee.

*⚓1 ..... Character of Iron vessels built with thicker plating than required for ⚓1.

⚓1 ⚓1 ..... Characters of Iron vessels built according to the Rules of the Society in force between the years 1864 and 1871.

A1 ..... Character of Wood or Composite vessels of the first class well and sufficiently equipped. The figures in column 5 (Steamers), column 6 (Sailing Vessels), prefixed to the character indicate the term of years for which the vessel is at present classed, thus :—11A1, Cont 6A1, Rest 6A1. (See notes in alphabetical key, page xxxvi, under "Cont" and "Rest.") The figures in column 7 (Steamers), column 8 (Sailing Vessels) indicate the expired terms of years originally assigned, if on the first line, and assigned on continuation if on lower lines.

A1 ..... Character of vessels which have passed the period assigned on original Survey, or Continuation, or Restoration, and of vessels not having an original character, which are found to be fit to carry dry and perishable goods. The term of years for which this character is assigned appears under the class in column 5 (Steamers), column 6 (Sailing Vessels), thus :— SSPly.22–6yrs.

Æ1 ..... Character of vessels fit for conveyance of dry and perishable goods on short voyages. The term of years for which the character Æ is assigned appears under the class in column 6 (Sailing Ships), thus :—SSPly.22–4yrs.

1 ..... The figure 1 included with the characters, as printed above, signifies that the vessel is well and efficiently equipped as per Tables 53, 54 & 55 (see the Society's Rules).

— ..... This sign placed after a character, in the position usually occupied by the figure 1, indicates that the equipment of the vessel—either as regards its quality or its quantity—does not fulfil the requirements of the Society's Rules.

✠ ..... This sign denotes that the vessel has been built under Special Survey.

✠ ..... This sign denotes that the engines or the boilers, or both (according to the record which follows) have been built under Special Survey.

—— 3,25 ..... A black line, with date underneath, indicates that the vessel's character was expunged from the Register Book at the date specified because from reported defects the vessel was not entitled to retain her classification.

—— 3,25 ..... A red line, with date underneath, indicates that the vessel's character was expunged from the Register Book at the date specified because from non-compliance with the Society's Rules as regards surveys, the vessel was not entitled to retain her classification.

... . This sign in column 7 (Steamers), column 8 (Sailing Vessels), indicates that the vessel's class was withdrawn from the Register Book at the Owner's request.

~~100A1~~ ..... When a posting of loss, condemnation, casualty, &c., is made against a classed vessel, the character is expunged in this manner.

with freeboard This notation under the character signifies that the freeboard assigned is a condition of the vessel's class.

For tug purposes, Trawler, &c. Such notations under the character indicate the special trade or purpose for which the vessel is intended and in view of which she has been classed by the Society.

Awng dk., Shade dk., &c. See illustrations of types of vessels, following page xlviii of key. Explanations of such terms as shade deck, awning deck, &c., are included in the alphabetical key to the abbreviations, see page xxxvi.

Symbols of Classification of the late Underwriters' Registry.

(Amalgamated with Lloyd's Register in 1885.)

A1* A1* ... Characters of Iron or Steel vessels built in excess of the Rules of the Underwriters' Registry and of extra quality of Iron.

A1* A1* ... Characters of Iron, Steel, or Composite vessels built according to the Rules of the Underwriters' Registry.

Vessels classed in red were built under the inspection of the Surveyors to the Underwriters' Registry.

The figure 1 affixed to Symbols of Classification signifies the Character of Equipment.

Last date of Survey. The figures under a character denote the date when the vessel was last surveyed. The *date of survey* only certifies to the vessel's state of efficiency *at that time.*

Ports of Survey. An explanation of contractions used to indicate surveying ports will be found on page xl.

The 6th, 7th, and 8th columns (Sailing Vessels), or 5th, 6th, and 7th columns (Steamers) left blank, indicate that the vessel has never been classed in the Register Book.

When the 6th (Sailing Vessels) or 5th (Steamers) column is left blank, except as regards the date of survey last recorded, it indicates that the character has expired, or that it has been withdrawn either for want of survey or on account of non-payment of fees due in the case.

Steamers, column 7*.

Date when the Tail shaft was last seen. The letter N preceding the date of last survey of the tail shaft (thus N 10,24) indicates that the tail shaft was *new* at that time. The letters P and S indicate respectively the last survey of *port* and *starboard* shafts.

Continuous Liners. The letters CL in this column denote that the shaft is fitted with a continuous liner.

Oil Gland. The letters OG denote that the shaft is fitted with an oil-retaining gland at the after end of the stern bush.

Steamers, column 7*. Sailing Vessels, column 17.

Mean Drafts. The figures in the columns represent the mean drafts corresponding to an immersion of 65, 70, 75, and 80 per cent. respectively, as assigned by the late Underwriters' Registry, but these drafts do not indicate approved load lines.

Steamers, column 8; Sailing Vessels, column 9.

Date of Build. In the case of Iron and Steel vessels classed by Lloyd's Register, the date of build recorded in the Register Book is in accordance with the Rules. In the case of classed Iron and Steel vessels launched prior to the 19th May, 1887, and also in the case of all classed Wood and Composite vessels, the date of launch is reckoned as the date of build. For vessels not classed by Lloyd's Register, it is not possible to define whether the date of build is the date of launch or the date of completion.

Records such as $18\frac{23}{24}$ occur in the case of some unclassed vessels. These denote that the vessel was originally built at the date indicated by the upper figures, and is reported to have been rebuilt at the date indicated by the lower figures. In such cases, the Society has no authoritative information as to the extent to which the reported rebuilding has been carried out.

Rebuilding of vessels, when carried out under the inspection and to the satisfaction of the Society's Surveyors, is recorded thus:—"rebuilt 22,"

Steamers, column 10; Sailing Vessels, column 12.

Owners. In the case of vessels of British Registration, the name recorded in the Register Book is that of the Managing Owner, or of the firm in which the Managing Owner is a partner. When there is not a Managing Owner appointed, the name of the largest shareholder is recorded; and the name of the Manager of the vessel is also noted if desired. In the case of colonial or foreign vessels, however, obvious difficulties render it impossible to ensure that a person entered as Managing Owner is in every instance a legal owner. He may sometimes be only the *Manager* of a vessel as distinguished from the Managing *Owner*.

Steamers, column 11; Sailing Vessels, column 13.

Dimensions. The Registered dimensions of vessels in these columns are recorded in feet and tenths of a foot.

Length and/or Breadth. Where two lengths and/or two breadths are recorded thus: $\frac{32{\cdot}5}{34{\cdot}0}$ the upper figures denote the length and/or breadth according to the Official Register of the vessel, and the lower figures according to British practice.

Depth. When two depths are recorded, thus: $\frac{16{\cdot}9}{24{\cdot}2}$ the upper figures denote the depth to main deck and the lower figures the depth to the upper, spar, awning or shelter deck. This practice is most frequently adopted in the cases of vessels which have a spar, awning or shelter deck. In some countries the registered depth is the same as the moulded depth.

Deck Erections. See illustrations of types of vessels, following page xlviii.

Water Ballast. See explanations and illustrations on page xxxix of key.

Steamers, column 12; Sailing Vessels, column 14.

Water Ballast. See explanations and illustrations on page xxxix of key.

Steamers, column 13.

All contractions used in relation to Engines, Boilers, Furnaces, &c., are explained in the alphabetical key, see page xxxvi.

Nominal Horse Power NHP. The formulæ from which the Nominal Horse Powers of steam reciprocating engines are calculated are:—

1. In cases of vessels in which the particulars of boiler pressures and surfaces are known:—

$$\text{NHP}=\frac{\text{P}+340}{1000}\left(\frac{\text{D}^2\sqrt{\text{S}}}{100}+\frac{\text{H}}{15}\right)$$ where the boiler pressure is below 160lb.

$$=\frac{\text{P}+590}{1500}\left(\frac{\text{D}^2\sqrt{\text{S}}}{100}+\frac{\text{H}}{15}\right)$$ where the boiler pressure is 160lb or above.

For determining the Nominal Horse Power of Steam Turbine Engines $\frac{\text{SHP}}{6}$ is to be substituted in the above formulæ for $\frac{\text{D}^2\sqrt{\text{S}}}{100}$, where SHP is the total Shaft Horse Power.

If the boilers are fitted with Forced Draught or Induced Draught appliances, then $\frac{\text{H}}{12}$ is taken instead of $\frac{\text{H}}{15}$

2. In cases where particulars of the boiler pressures and heating surfaces are not known:—

$$\text{NHP}=\frac{\text{D}^2\sqrt{\text{S}}}{100}$$ for Triple and Quadruple Expansion Engines

$$\text{NHP}=\frac{\text{D}^2\sqrt{\text{S}}}{120}$$ for Compound Engines. $$\text{NHP}=\frac{\text{D}^2\sqrt{\text{S}}}{130}$$ for Simple Engines.

In the above Rules, D = diameter of L.P. Cylinder in inches. S = Stroke in inches. H = Heating surface in square feet. P = Working pressure in lb per square inch.

In vessels fitted with Diesel Engines:—

$$\text{NHP}=\frac{\text{C}\times\text{N}\times\text{D}^2}{\frac{\text{S}}{\text{D}}+50}$$

where NHP = the Nominal Horse Power.
N = the number of power cylinders.
D = the diameter of the power cylinders in inches.
S = the stroke of the piston in inches. In the case of the opposed piston type of Diesel Engines S is half the combined stroke of the pistons.
C = 5 for Engines of the 4 S.C.S.A. type.
= 10 for Engines of the 4 S.C.D.A. type.
= 9 for Engines of the 2 S.C.S.A. type.
= 18 for Engines of the 2 S.C.D.A. type.
= 16 for Engines of the 2 S.C.S.A. opposed piston type.

In vessels fitted with Internal Combustion Engines other than Diesel type:—

$\text{NHP}=\frac{\text{BHP}}{3{\cdot}5}$ where BHP is the Brake Horse Power at full power.

Registered Horse Power RHP. This note shows that the horse power given is the nominal horse power as recorded in the Official Register of the vessel.

Geared Turbine Engines. The letters S.R. denote that Single Reduction Gear is fitted between the main engines and screw shafting.
The letters D.R. denote that Double Reduction Gear is fitted between the main engines and screw shafting.

Oil and Gas Engines. 4S.C. denotes 4-stroke cycle. SA denotes single acting.
2S.C. denotes 2-stroke cycle. DA denotes double acting.

Water Ballast. See explanations and illustrations on page xxxix of key.

Steamers, column 14; Sailing Vessels, column 15.

Moulded Depth. The moulded depth of an Iron or Steel vessel is the perpendicular depth taken from the top of the upper deck beam at side, at the middle of the length of the vessel, to the top of the keel and the bottom of the frame at the middle line. In Wooden and Composite vessels the moulded depth is the perpendicular depth from the top of the upper deck beam at the side of the vessel amidships to the lower edge of the rabbet of the keel.

In Wooden and Composite vessels where the lower part of the midship transverse section is of a hollow character (as in cases where thick garboard strakes are fitted) the moulded depth is measured from the point where the line of the flat of the bottom cuts the keel. Fractions of an inch are not recorded.

Draught. The "corresponding draught" for all cases recorded prior to August, 1923, is the calculated *mean* draught of water from bottom of keel to centre of load line disc and fractions of an inch are not recorded. Subsequent to that date the actual draught to the nearest quarter of an inch, as supplied by the respective Shipbuilders, is recorded.

Steamers, column 15; Sailing Vessels, column 16.

For explanations of symbols used to denote the Registers in which a vessel is classed (if she is not classed in Lloyd's Register Book), see alphabetical key, page xxxvi.

Board of Trade Passenger Certificate. The note "till 6,25" indicates that the certificate expires at the date specified, June 1925.

TABLE EXPLICATIVE CONCERNANT LE REGISTRE,

1925-26.

EXPLICATIONS DES ANNOTATIONS DU "LLOYD'S REGISTER BOOK."

(Toutes les abreviations du "Lloyd's Register Book" se trouvent expliquées dans la Table Explicative, voir page xliv.)

Navires à Vapeur, colonnes 2 et 3 ; Navires à Voiles, colonnes 3 et 4.

Ponts. Voir les dessins des différents types de navires à la suite de la page xlviii de la Table Explicative. Les explications des termes tels que *shade dk.*, etc., sont fournies dans la Table Explicative, voir page xliv.

3 Dk. rule .....Cette annotation indique que le navire a été construit d'après les règlements pour les navires à trois ponts.

Visites Périodiques. L'explication de l'enregistrement des visites spéciales périodiques se trouve dans la Table Explicative, voir page xliv. L'enregistrement indique seulement la condition du navire à l'époque de la visite.

Ports de Visite. Les abréviations telles que (Lon., Syd., &c.), employées pour indiquer les ports où les navires ont été inspectés, sont expliquées à la page xlviii.

Gréement, etc. Les abréviations employées pour spécifier le gréement des navires sont expliquées dans la Table Explicative, voir page xliv.

† .....Ce signe à la suite du mot "*salted*" indique que les barrots du navire n'ont pas été salés.

Navires à Voiles, colonnes 3 et 4.

Capitaine. Les chiffres à la suite du nom du capitaine, ainsi, *Smith* 97–11, indiquent (1°) l'année où il est entré comme capitaine au service de l'armateur, (2°) l'année où il a pris le commandement du navire.

Navires à Vapeur, colonne 4 ; Navires à Voiles, colonne 5.

Tonnage. Le tonnage qui figure sur le "Lloyd's Register Book" en caractères comme ci-contre, est à part quelques rares exceptions, le tonnage officiel mesuré d'après les lois du pays auquel le navire appartient.

3101 (Total)
2864 (Sous le pont)
1994 (Net)

Pour quelques navires étrangers, le tonnage qui figure a été mesuré d'après la méthode Anglaise, et est reconnu par la loi Anglaise. Dans ce cas le fait est mentionné par l'emploi de caractères italiques, comme ci-contre.

3101 (Total)
2864 (Sous le pont)
1994 (Net)

Navires à Vapeur, colonnes 5, 6 & 7 ; Navires à Voiles, colonnes 6, 7 & 8.

Marques de Classification du Lloyd's Register.

100A1 ..... } Cotes des navires en fer ou en acier, construits conformément aux règlements de la Société depuis 1869. Les nombres 100, 90, &c., n'indiquent pas une période d'années, mais ne servent que de termes de comparaison.
90A1 ..... }

A1 .....Cette cote non précédée d'un nombre, s'applique aux navires en fer ou en acier, construits à la satisfaction du Comité pour des usages ou des voyages spéciaux.

*⩓1 .....Cote des navires en fer construits avec des tôles plus épaisses que celles réclamées pour la cote ⩓1.

⩓1 ⩓1.....Cotes des navires en fer construits conformément aux règlements de la Société en vigueur de 1864 à 1871.

A1 .....Première cote des navires en bois ou composites dont l'armement est bon et suffisant. Les chiffres qui précèdent la cote, colonne 5 (navires à vapeur), colonne 6 (navires à voiles), indiquent le nombre d'années pour lesquelles le navire a été coté, ainsi :—11A1, Cont 6A1, Rest 6A1. (Voir "Cont" et "Rest" dans la Table Explicative, page xliv.) Les chiffres dans la colonne 7 (navires à vapeur), colonne 8 (navires à voiles), indiquent les périodes expirées pour lesquelles les navires avaient été cotés. A la première ligne ces chiffres indiquent la période originelle, aux lignes suivantes les périodes de continuation.

A1 .....Cote des navires pour lesquels les périodes assignées soit originellement, soit par Continuation ou par Restauration sont expirées, ou cote des navires qui n'ont jamais eu de cote originelle mais qui sont jugés aptes à transporter des marchandises sèches et périssables. Le nombre d'années pour lesquelles la cote a été assignée figure sous la cote dans la colonne 5 (navires à vapeur), colonne 6 (navires à voiles), ainsi :— SSPly.22–6yrs.

Æ1 .....Cote des navires aptes à transporter des marchandises sèches et périssables pour de courtes traversées. Le nombre d'années pour lesquelles la cote Æ a été assignée, figure sous la cote dans la colonne 6 (navires à voiles), ainsi :—SSPly.22–4yrs.

1 .....Le chiffre 1 imprimé comme ci-contre et faisant partie de la cote, indique que le navire a un armement bon et suffisant conformément au Tabl. 53, 54 & 55 (voir règlements de la Société).

— .....Ce signe à la suite d'une cote, à la place occupée par le chiffre 1, indique que l'armement du navire ne répond pas aux exigences des règlements de la Société, soit comme qualité, soit comme quantité.

✠.....Ce signe indique que le navire a été construit sous surveillance spéciale.

✠.....Ce signe indique que les machines ou les chaudières, ou toutes les deux (suivant l'annotation dont il est suivi) ont été construites sous surveillance spéciale.

3,25.....Une ligne noire avec date au-dessous, indique que la cote du navire a été retirée du "Lloyd's Register Book," le navire ne pouvant conserver sa cote par suite de défectuosités signalées.

3,25.....Une ligne rouge avec date au-dessous, indique que la cote du navire a été retirée du "Lloyd's Register Book," le navire ne pouvant conserver sa cote par suite de dérogation aux règlements de la Société en ce qui concerne les visites.

... .Ce signe dans la colonne 7 (navires à vapeur), colonne 8 (navires à voiles), indique que la cote du navire a été retirée du "Lloyd's Register Book" à la demande de l'armateur.

~~100A1~~ .....Quand un navire coté est mentionné comme perdu, condamné ou ayant tout autre accident, &c., la cote est rayée comme ci-contre.

with freeboard ...Cette mention sous la cote indique que le franc-bord assigné est une condition de la cote du navire.

"For tug purposes," "Trawler," &c. Cette mention sous la cote indique les voyages ou les usages spéciaux auxquels le navire est affecté et en vue desquels il a été classé par la Société.

Awng dk., Shade dk., &c. Voir les dessins des différents types de navires à la suite de la page xlviii de la Table Explicative. Les explications des termes tels que shade deck, awning deck, &c., sont données dans la Table Explicative, voir page xliv.

Marques de Classification de l'ex Underwriters' Registry.

(Réuni avec le Lloyd's Register en 1885.)

A1* A1* .....Cotes des navires en fer ou en acier construits avec des échantillons plus forts que ceux exigés par les règlements de l'Underwriters' Registry et avec des fers de qualité extra.

A1* A1*.....Cotes des navires en fer, en acier ou composites, construits conformément aux règlements de l'Underwriters' Registry.

Les navires cotés en rouge ont été construits sous la surveillance des Inspecteurs de l'Underwriters' Registry.

Le chiffre 1 à la suite des marques de classification indique la cote de l'armement.

Date de dernière Visite. Les chiffres sous une cote indiquent la date de dernière visite. La date de visite certifie seulement la condition du navire à ce moment.

Ports de Visites. Les abréviations employées pour indiquer les ports de visites sont expliquées à la page xlviii.

Les 6me, 7me, et 8me colonnes (navires à voiles) ou les 5me, 6me, et 7me colonnes (navires à vapeur) laissées en blanc, indiquent que le navire n'a jamais été coté dans le "Lloyd's Register Book." La 6me colonne (navires à voiles) ou la 5me colonne (navires à vapeur) laissée en blanc, sauf en ce qui concerne l'époque de la dernière visite enregistrée, indique que la cote est expirée ou bien qu'elle a été rayée soit pour manque de visite, soit pour non paiement des honoraires dûs dans ce cas.

Navires à Vapeur, colonne 7*.

Date de la dernière Visite de l'arbre porte-hélice. La lettre N précèdant la date de la dernière visite de l'arbre porte-hélice (par exemple N 10,24) signifie qu'on a mis à la date indiquée un arbre porte-hélice *neuf*. Les lettres P & S serviront à désigner respectivement les arbres porte-hélice de *Bâbord* et de *Tribord*.

Chemises continues. Les lettres CL dans cette colonne indiquent que l'arbre est pourvu d'une chemise continue.

Presse-garnitures à huile. Les lettres OG indiquent que l'arbre est muni, à la partie arrière du tube d'étambot, d'un presse-garnitures pour retenir l'huile.

Navires à Vapeur, colonne 7* ; Navires a Voiles, colonne 17.

Tirants d'eau moyens. Les chiffres qui figurent dans ces colonnes représentent les tirants d'eau moyens correspondant aux immersions de 65, 70, 75 et 80 pour cent. tels qu'ils ont été assignés par l'ex-Underwriters' Registry, mais ces tirants d'eau n'indiquent pas les lignes de charge approuvées.

Navires à Vapeur, colonne 8 ; Navires à Voiles, colonne 9.

Date de Construction. Dans le cas des navires en fer et en acier classés au LLOYD'S REGISTER, la date de construction inscrite dans le Registre est conforme aux Règlements. Pour les navires en fer et en acier cotés et lancés antérieurement au 19 Mai 1887, ainsi que pour tous les navires cotés en bois et composites, la date du lancement est considérée comme étant celle de la construction. Pour les navires non cotés par le Lloyd's Register, il n'est pas possible de spécifier si la date de construction est celle du lancement ou celle de l'achèvement des travaux.

Des annotations telles que $18\frac{8}{4}\frac{4}{4}$ figurent pour quelques navires non cotés. Les chiffres supérieurs indiquent alors la date originelle de la construction, les chiffres inférieurs la date à laquelle le navire a été rapporté comme reconstruit. Dan ce cas la Société ne peut spécifier l'importance de la reconstruction.

La Refonte d'un navire à condition qu'elle soit effectuée sous la surveillance et à la satisfaction des Inspecteurs de la Société est mentionnée comme suit :—"rebuilt 22."

Navires à Vapeur, colonne 10 ; Navires a Voiles, colonne 12.

Armateurs. Pour les navires de la Grande Bretagne et de l'Irlande, le nom qui figure sur le "Lloyd's Register Book" est celui de l'armateur-gérant ou celui de la Société dont l'armateur-gérant fait partie. Lorsqu'il n'y a pas d'armateur-gérant, le nom qui figure est celui du plus gros actionnaire et le nom du gérant figure aussi, si on le demande. Pour les navires coloniaux et étrangers, de sérieuses difficultés empêchent de certifier qu'une personne mentionnée comme étant armateur-gérant est, dans chaque cas, l'armateur légal. Dans certains cas la personne dont le nom figure peut n'être que *gérant*, ce qui est absolument distinct *d'armateur-gérant*.

Navires à Vapeur, colonne 11; Navires à Voiles, colonne 13.

Dimensions. Les dimensions de douane des Navires, dans ces colonnes sont indiquées en pieds et en dixièmes de pieds.

Longueur et/ou Largeur. Quand deux longueurs et/ou deux largeurs sont mentionnées, ainsi $\frac{32{\cdot}5}{34{\cdot}0}$ les chiffres supérieurs indiquent la longueur et/ou la largeur d'après le Registré Officiel rational du navire, et les chiffres inférieurs indiquent les mêmes dimensions d'après la pratique anglaise.

Creux. Quand deux creux sont mentionnés, ainsi $\frac{16{\cdot}9}{24{\cdot}2}$ les chiffres supérieurs indiquent le creux au pont principal et les chiffres inférieurs le creux au pont supérieur des navires spar, awning ou shelter deck. Cet usage s'applique surtout aux navires spar, awning ou shelter deck. Dans quelques pays, le creux du registre est le même que le creux sur quille.

Constructions sur les Ponts. Voir les dessins des différents types de navires à la suite de la page xlvi.

Water Ballast. Voir explications et dessins à la page xlvii de la Table Explicative.

Navires à Vapeur, colonne 12 ; Navires à Voiles, colonne 14.

Water Ballast. Voir explications et dessins à la page xlvii de la Table Explicative.

Navires à Vapeur, colonne 13.

Toutes les abréviations employées se rapportant aux Machines, Chaudières, Foyers, &c., sont décrites dans la Table Explicative, voir page xliv.

Force en Chevaux nominaux NHP. La force en chevaux nominaux est calculée pour les machines alternatives à vapeur d'après les formules suivantes :—

1°. Si les pressions et les surfaces de chauffe sont connues :—

$$\text{NHP}=\frac{\text{P}+23{,}9}{70{,}3}\left(\frac{\text{D}^2\sqrt{\text{S}}}{1028}+0{,}72\,\text{H}\right)$$ pressions au-dessous de 11,25 kgs. par centimètre carré.

$$=\frac{\text{P}+41{,}5}{105{,}5}\left(\frac{\text{D}^2\sqrt{\text{S}}}{1028}+0{,}72\,\text{H}\right)$$ pressions de 11,25 kgs. et au-dessus.

Pour calculer la puissance nominale des turbines à vapeur, substituer $\frac{\text{SHP}}{6}$ (SHP étant le puissance totale sur l'arbre) à la place de $\frac{\text{D}^2\sqrt{\text{S}}}{1028}$ dans les formules précédentes.

Pour les chaudières à tirage forcé ou à tirage induit, on doit substituer dans les formules ci-dessus 0,90 H à 0,72 H.

2°. Si les pressions et les surfaces de chauffe ne sont pas connues :—

$$\text{NHP}=\frac{\text{D}^2\sqrt{\text{S}}}{1028}$$ Machines à Triple et Quadruple expansion.

$$\text{NHP}=\frac{\text{D}^2\sqrt{\text{S}}}{1233}$$ Machines Compound.

$$\text{NHP}=\frac{\text{D}^2\sqrt{\text{S}}}{1337}$$ Machines Simples.

Dans les formules ci-dessus D = diamètre en centimètres du Cylindre B.P. S = Course du piston en centimètres. H = Surface de chauffe en mètres carrés. P = Pression de travail en kilogrammes par centimètre carré.

Pour les navires pourvus de moteurs Diesel :—

$$\text{NHP}=\frac{\text{C}\times\text{N}\times\text{D}^2}{\frac{\text{S}}{\text{D}}+50}$$

où NHP = Puissance en chevaux nominaux.
N = Nombre de cylindres.
D = Diamètre des cylindres en centimètres.
S = Course de piston en centimètres ; dans le cas de moteurs Diesel du type à pistons opposés, S est la moitié de la course combinée des pistons.
C = 0,775 pour les moteurs à 4 temps simple effet.
= 1,55 pour les moteurs à 4 temps double effet.
= 1,395 pour les moteurs à 2 temps simple effet.
= 2,79 pour les moteurs à 2 temps double effet.
= 2,48 pour les moteurs à 2 temps simple effet, à pistons opposés.

Pour les navires pourvus de machines à combustion interne, autres que des moteurs Diesel :—

$$\text{NHP}=\frac{\text{BHP}}{3{\cdot}5}$$ formule dans laquelle BHP représente les chevaux en frein toute force.

Force Officielle en Chevaux RHP. Cette annotation indique la force en chevaux nominaux d'après le Registre Officiel du navire.

Turbines à Engrenages. Les lettres S.R. indiquent qu'un engrenage à simple réduction est installé entre les machines principales et l'arbre porte-hélice.
Les lettres D.R. indiquent qu'un engrenage à double réduction est installé entre les machines principales et l'arbre porte-hélice.

Machines à pétrole et à gaz. 4S.C. indique Cycle à 4 temps. SA indique simple effet.
2S.C. indique Cycle à 2 temps. DA indique double effet.

Water Ballast. Voir explications et dessins à la page xlvii de la Table Explicative.

Navires à Vapeur, colonne 14 ; Navires à Voiles, colonne 15.

Creux sur quille. Le creux sur quille pour les navires en fer et en acier, est la longueur de la perpendiculaire abaissée depuis la face supérieure des barrots du pont supérieur sur le coté et au milieu de la longueur du navire, jusqu'à hauteur de la rencontre de la face inférieure de la membrure avec le dessus de la quille sur la ligne médiane. Pour les navires en bois et composites, le creux sur quille est la longueur de la perpendiculaire abaissée depuis la face supérieure des barrots du pont supérieur jusqu'à hauteur de l'arête inférieure de la rablure de quille. Pour les navires en bois et composites dont les parties inférieures sont frégatées (lorsqu'un navire est pourvu par exemple de galbords épais) le creux sur quille n'est alors calculé que jusqu'à hauteur de l'intersection de la ligne prolongée des fonds avec la quille. Les fractions d'un pouce ne sont pas mentionnées.

Tirant d'eau. Le "tirant d'eau correspondant," pour tous les cas mentionnés avant août, 1923 est le tirant d'eau moyen calculé depuis le fond de la quille jusqu'au centre du disque de la ligne de charge ; et les fractions de pouce ne sont pas mentionnées. Après cette date, le tirant d'eau actuel, au quart de pouce le plus voisin, et tel qu'il a été indiqué par les constructeurs de navire, est mentionné.

Navires à Vapeur, colonne 15 ; Navires à Voiles, colonne 16.

Pour l'explication des marques employées pour indiquer les différents Registres auxquels un navire est coté (s'il n'est pas coté au Lloyd's Register), voir Table Explicative page xliv.

Certificat à passagers, délivré par le "Board of Trade." Cette annotation "till 6,25" indique que le certificat expire à la date mentionnée, Juin 1925.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** **Additional Ships are inserted in the Supplement at the end of the Register.**

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

***Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

**Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.
